

## Anhang 6

The screenshot shows the 'Karteikarten für Biologie' (Flashcards for Biology) interface. At the top, there are filters for 'Reihenfolge' (Zufällig), 'Ersteller' (Jeder), 'Tag' (None), and 'Status'. A search bar and a '1 Karte' indicator are also present. The main area displays a flashcard with the question 'Um welche Nukleobase handelt es sich bei dieser Abbildung?' and a ball-and-stick model of a nucleotide base. Below the model is a button 'Antwort anzeigen'. At the bottom, there are four feedback icons: 'Unklar', 'Unsicher', 'Verstanden', and 'Nicht zeigen'. On the right, a 'Karteikarte erstellen' (Create Flashcard) panel is visible, with fields for 'Frage' (Question) and 'Antwort' (Answer), each with a rich text editor. There is also a 'Karteikarte teilen' (Share Flashcard) option and an 'Erstellen' (Create) button.
